Lane Library's Liaison Program

Marilyn Tinsley

650-723-5969

marilyn.tinsley@stanford.edu

Welcome to Stanford!

I am Marilyn Tinsley, Research Services Librarian at Lane Medical Library. As your liaison, I'm your personal contact at Lane.

Whether you need assistance on challenging database searches, managing your search results, or locating needed information, please contact me.

My class offerings include PubMed, Finding Funding, EndNote, Finding Health Statistics, and more. Sign up for one of Lane's classes, or arrange a customized session for your journal club or study group. Consultation appointments, phone calls, and email are all great ways to work together.

My liaison areas include:

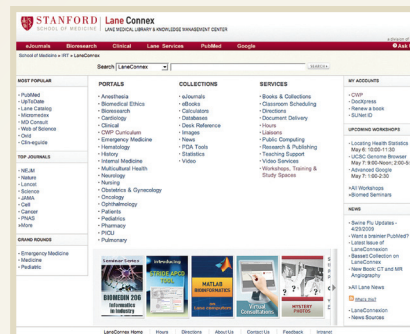

- Bioengineering
- Biosciences Graduate Students
- Neurology & Neurological Sciences
- Nursing
- Ophthalmology
- Patient Education Research Center
- Physical Medicine & Rehabilitation
- Primary Care Associate Program
- Psychiatry & Behavioral Sciences
- Rehabilitation Services

*I'm looking forward to meeting and working with you.
Sincerely,*

Marilyn

Lane Library & Knowledge Management Center is your library

We provide over 5400 biomedical e-journals, over 6800 e-books, databases such as PubMed and UpToDate, plus many other valuable resources for clinicians and researchers. Our mission is to get the right information to the right person, at the right time and in the right place. To easily find information, take advantage of the searchable portals (Clinical, Pediatrics, and more); search results provide access to the contents of selected e-books, PubMed citations (best evidence first), guidelines, and more. Lane's resources are also integrated into EPIC and Cerner, the electronic medical record systems used at Stanford and Packard hospitals.

Check out the new PCAP LibGuide at the PCAP Portal!

Professional Journals

[Journal of the American Academy of Physician Assistants](#)
JAAPA is the peer-reviewed clinical journal of the American Academy of Physician Assistants. Its mission is to support the ongoing education and advancement of PAs by publishing current information and research on clinical, health policy, and professional issues.

[Journal of Physician Assistant Education](#)
The Journal of Physician Assistant Education (PAEA) is the Association's official journal. This peer-reviewed quarterly publication was renamed in 2006, after eight years of publication as Perspective on Physician Assistant Education.

The Curriculum

The Stanford program has two comprehensive courses each quarter (one didactic course and one clinical course).

Didactic courses include:

- basic medical sciences (anatomy, physiology, pathophysiology and genetics)
- clinical medicine lectures
- pharmacotherapeutics
- information literacy/evidence based medicine
- pediatric development

Circulation Services – How can we help you?

My Account

Use “My Account” to renew/recall items and view your lane Library account information - due dates, status of requests, fines and blocks:

<http://lmlib.stanford.edu/cgi-bin/Pwebrecon.cgi?DB=local&PAGE=pbLogon>

Lane Live Chat

Lane Live Chat offers instant messaging chat for our users to quickly obtain information about library services, collections, access, citation verification, and much more!

<http://lane.stanford.edu/help/live-chat.html>

Public Computing

- Wired and wireless networking is available throughout the library
- Mobile charging station for handhelds and notebooks available on both library levels and on 4th floor, LKSC

Lost & Found

Items, including LKSC lost items, are logged and held at the Service Desk for 1 week, then taken to the SHC Security Office.

Print Services

Self-service printing and copying are available. Machines do not accept cash. Card vending machine is located in the Duck Room. See Service Desk staff for assistance.

Printing

Printers are located in:

- Duck Room (black and white only)
- Redwood Room (black and white, color)

Photocopying

Black & white

photocopiers are located:

- Ground floor level in the journal stack area
- **There are no color copiers**

Digital Workstations

- High-resolution scanners,
- Graphic design software

Lane Study Spaces [Available during regular hours of operation]

Main Floor

Reference Alcove

Study tables

Lane Lounge

Soft seating

Lower Level

Collaborative Commons

Study tables, soft seating

Quiet Zone

Study tables, carrels

No cell phones or conversation

Group Study Rooms

Available by reservation:
Sign-up sheets posted on doors, Lower Level only.

DocXpress – Lane’s Document Delivery Service

DocXpress, Lane's web-based interlibrary loan and document delivery service, provides access to research materials from around the world, as well as from the Stanford Libraries. Use DocXpress **eDelivery** to request materials not available at Stanford or unavailable in digital format from Lane or other Stanford Libraries.

DocXpress **Physical Delivery** is an Interlibrary Loan (ILL) service. Lane Medical Library participates in collaborative resource-sharing nationally to provide material you need when Stanford does not own it or when the title is available only in print format.

With DocXpress, you can:

- Request web delivery of articles as PDF files
- Request “Pull and Copy” service - we will make and deliver a digital copy of a Stanford-owned article or book chapter for a fee
- Request an Interlibrary Loan of articles, books, book chapters, and patents not owned by a Stanford Library.
- Receive immediate DocXpress updates with RSS Notifications!
- Save time! Click on the **FindIt@Stanford** button in PubMed to connect to DocXpress. The citation information will automatically fill the request form
- Have 24/7 access
- Track progress of each request
- View a history of all items you have requested
- Enjoy fast turnaround time
- Urgent patient care service available

DocXpress service is available to:

- Stanford School of Medicine staff, faculty and students
- Stanford Hospital and Clinics and Lucille Packard Children’s Hospital staff
- Stanford undergraduate HumBio majors
- Bioengineering/BioX graduate students

GET STARTED!

- Go to “DocXpress” (<http://docxpress.stanford.edu/>) to register and log in. Registration is a one-time only process.

PubMed- Index of Medical Literature from 1950s-present

PubMed Quick Guide

- Log on to PubMed at Lane Library's web site: <http://lane.stanford.edu>. Click on the link to PubMed.
- PubMed will automatically map your search terms to **MeSH** (Medical Subject Headings) for enhanced retrieval.
- Use the **asterisk (*)** to truncate search terms at the end of the root word, e.g., steroid* for steroidal. The truncated root will be searched with up to 150 variations.
- Use **quotation marks** when searching for a specific phrase, e.g. "pulmonary edema".
- For finding articles by a particular **author**, enter the author's last name and first two initials, e.g., bloom cm
- PubMed supports Boolean searching. Use **parentheses** with Boolean operators AND, OR, NOT to search for combinations of search terms, e.g. hematuria AND (hyperglycem* OR diabetes).
- Use "OR" between search terms to find citations that include at least one of the terms, or to group similar terms, e.g. (heart OR cardiac). Use the word "NOT" to exclude terms.
- Click the title to view the abstract and the **FindIt@Stanford** (SFX) button.  is
- The **FindIt@Stanford** button links to the **fulltext** when possible; if fulltext not easily available, follow links to Lane Catalog or DocXpress.

PubMed Toolbars

- **Limits** allow you to restrict your search by parameters such as review article, publication date, age group, human or animal study, language.
- To retrieve a previous search, click on "Advanced Search" above the search box.
- To change the display format of your citations, click the link "Display Settings" above the results. Click "Apply".
- To **download, print, save to clipboard** or **email** citations, click on "Send to:", then select the destination (e.g., email).

For importing into EndNote use "Medline" display format

- **Single Citation Matcher** is useful for locating articles when you have part but not all of citation.
- **Clinical Queries** offers evidence-based-medicine filters for searching the literature.

More Resources

- **MeSH Database** will help you construct your search using medical subject headings. Put in your keyword; it will try to link you to the appropriate subject heading.
- **MyNCBI** allows you to save searches, set up email alerts from searches, and set standard preferences for specific

Stanford Medical History Center

Curious about the history of medicine at Stanford?

Cooper Medical College –
Predecessor to Stanford University
School of Medicine - San Francisco, 1880s

The **Stanford Medical History Center** connects researchers with reference materials, scholarly literature, and original primary historical sources about the history of clinical care, medical research and medical education at Stanford and beyond.

Among the resources available:

- **history** of medicine encyclopedias and other reference tools
- **assistance** in finding monographs and journal articles on the history of medicine
- historical **photograph** collections
- collections of **personal papers** of Stanford medical faculty, staff and alumni
- over **7,000 rare books** on medicine going back to the 13th century

The Stanford Medical History Center also provides assistance for anyone interested in historical research.

Appointments are available

Monday – Friday

10:00 a.m. – 4:30 p.m.
